

Pupil Premium Profile 2019

EPWORTH PRIMARY ACADEMY

Pupil Premium Profile

Pupil Premium was introduced by the Department for Education (DfE) in 2011, as additional funding for pupils who receive Free School Meals and who are Looked After Children. This is because the DfE have recognised that good education is the key to improving young people's life chances. This is particularly true for children from low-income families, or who are Looked After Children, research shows that without intervention these children are far less likely to leave schools with good GCSE results than other children. The Pupil Premium, using additional resources from outside the School's Budget, is intended to address the current inequalities by ensuring that funding reaches the pupils who need it most.

The Pupil Premium has also been introduced for children whose parents are currently serving in the armed forces. This service premium is designed to address the emotional and social well-being of these pupils.

The DfE have stated that schools have the right to spend this funding as they see fit based upon their knowledge of pupil needs. There is obvious accountability that serves to ensure that the money is used effectively and to the benefit of these key groups.

"Schools, headteachers and teachers will decide how to use the Pupil Premium allocation, as they are best placed to assess what additional provision should be made for individual pupils."

This money is used for additional support and resources to directly target these children or indirectly through releasing time for teachers to provide small group support. At Epworth Primary Academy we use our funding for a range of purposes suited to the individual needs of our children.

Forces funding	What should the SPP be used for? The Ministry of Defence states that: "Eligible schools receive the SPP so that they can offer mainly pastoral support during challenging times and to help mitigate the negative impact on Service children of family mobility or parental deployment." The funds should therefore be used for projects such as counselling for pupils with parents on deployment, improving methods of communication with parents deployed abroad, the creation of clubs like MKC Heroes, or paying for the hiring of additional staff when pupils join a new school or when parents are deployed. The SPP is not intended to be used to subsidise routine school activity.
